## My Interest In Earning An MBA Degree

“Success is the ability to go from failure to failure without losing your enthusiasm.”

– Winston Churchill

The above line has taught me that winners are not afraid of losing, but losers are. Failure is a part of the process called ‘Success’. People who avoid failure also avoid success in their life.

Early in my life, at the high-school level, I learnt the value of hard work and perseverance. This led me to secure 88% in my higher-secondary examination (10+2). Later, this served as a foundation for my studies in Bachelors of Financial Markets (BFM) at Jai Hind College, which ranks as one of the top accredited commerce college affiliated to Mumbai University in Mumbai, Maharashtra, India. I graduated Jai Hind College with a CGPA of 6.78 out of 7, equivalent to 76.67%. Currently, I am also pursuing Association of Chartered Certified Accountants (ACCA) & I have cleared 7 papers out of 13. Having two years of relevant experience in the field of accounting, the power of knowledge seems to call me out, persuading me to seek more. The dream I nurtured during my graduation has grown with me, and to make this a reality I intend to pursue an MBA at your esteemed University.

The degree will help me gain a new perspective on how businesses are handled and to get to live in a foreign country. This will broaden my cultural horizon and international business career prospects. Moreover, the program will help me expand my business knowledge by securing great networking opportunities. Studying an MBA at your university will help me get out of the comfort zone. The degree program will keep me updated of the latest management techniques and newest business trends around the globe.
