# 4NEW ICO: Making Waste Product More Lucrative

## 4NEW ICO: Making waste product more lucrative

### Overview

You might wonder! What is the motive of this interesting platform called 4NEW? Stay tuned. The 4NEW reason of coming on board was for the purpose of changing our environmental off dirt and making dirt industry a lucrative one. The bitcoin statistics consumption will give us a great insight why we need a platform like 4NEW in our world. Global warming news reported in our various media outlets where several lives of properties is usually lost due to its effect making it one of the world most reported disaster. The blockchain technology has begins taking the bold step of using gigantic energy consumption. According to reports, a bitcoin need energy for minning to 32.88 United State consumption of household in a day.

However, bitcoin mining for electric use will improve about 29.98% up to a total 0.31% of entire Worlds energy consumption, how will this be sustained in the nearest future? Your guess is as good as mine. 4NEW saw these challenges and provide solution in line with the cryptorrecy world, and as such combining waste product and mining top 20 cryptocurrencies. It aims to providing the sustainability, highly profitable mining solution which can serve as benefits.

### 4NEW in brief?

4NEW is blockchain ecosystem that uses waste process to generating of electricity for individual, companies, and groups. The logic of the ecosystem is built on the basis to decrease the environmental denigration globally and improving the production of electricity.

The surge in price of cryptocurrency was extensively depends on increase in the consumption pattern of the electricity. It is used in farms function for mining purpose. Developing crypto-currencies need constant generating the power, this lead to the surge in electricity uses has become an important factor for the inflating prices of energy.4NEW Project will enable generating electricity by building plants that use differents waste for fuel purpose..

### Features of 4NEW Ecosystem

- It can be recycled and re-use. Sold electric within the countries in operation of the processing plants

- 
- Making electricity generating via waste processing
  - Ability to mine on several cryptocurrency for electricity purpose

A distinctive feature of the project

Technology support for everyone who join and support the ecosystem.

## Competitive advantage

4NEW will be the first plant created based on blockchain, it will produce about 10 mW of energy hourly. If calculating this in a year, it will be estimated at 346 million kW. After removing the amount of time on equipment maintenance, then yearly production strength will amount to 300 million kW. This shows the profit margin for the 4NEW members.

4NEW will enable KWATT token. It's internal currency. It can be equivalent to price of 1 kW of electricity. Recently, some European countries sold 1kW within figure of 0.15 USD. The price will remain as such irrespective of consumption volume.

Participating on 4NEW enables trade generated electricity for profit sake. The KWATT's tokens is based on smart contracts and it used within the ERC20 site, which is based on Ethereum technology. Every of such operation will pre-planned so as to performed in a distributed blockchain that ensured the data reliability objective.

## 4NEW Ecosystem

In addition, the ecosystem of 4NEW was planned in creating a reliable ecosystem. It's intends to including the below components :

- Transfer Funding Company: Companies that has ability to huge scale activities can be launched. The focus will consist of the transfer of funds. This will provides everyone the opportunities to earn KWATT tokens and be used for means of payment.
- Digital pharmacy: Various companies have the customers from United States.
- Miners farm: It will be sighted on WTE plant.
- Insurance Company: It shall provide the insurance needed medically to NINETY thousand estimated customers.

Looking at the various machineries of the ecosystem, it is no doubt that the profitability of platform will be on the high side. Everyone can enjoy the platform.

## Purchase KWATT token
